Auto

4-in-1
Functionality

CIAC

°C/°F Toggle Available

Temperature control range: 16–32°C

Users can set the displayed temperature to either Fahrenheit or Celsius via the panel buttons (press and hold the temperature "+" and "-" buttons simultaneously).

Removable Filter + Dust Full Reminder

Easy Maintenance,
Clean Air

8m

8-Meter Remote Range

Full room coverage, control comfort without moving

3D Manual Airflow

You can easily guide the airflow up, down, left, or right to match your comfort needs.

- **Avoid direct blast** – prevent cold wind from blowing directly on people.
- **Customized comfort** – cool the room focus on a specific area.
- **Simple manual control** – adjust intuitively without complicated settings.

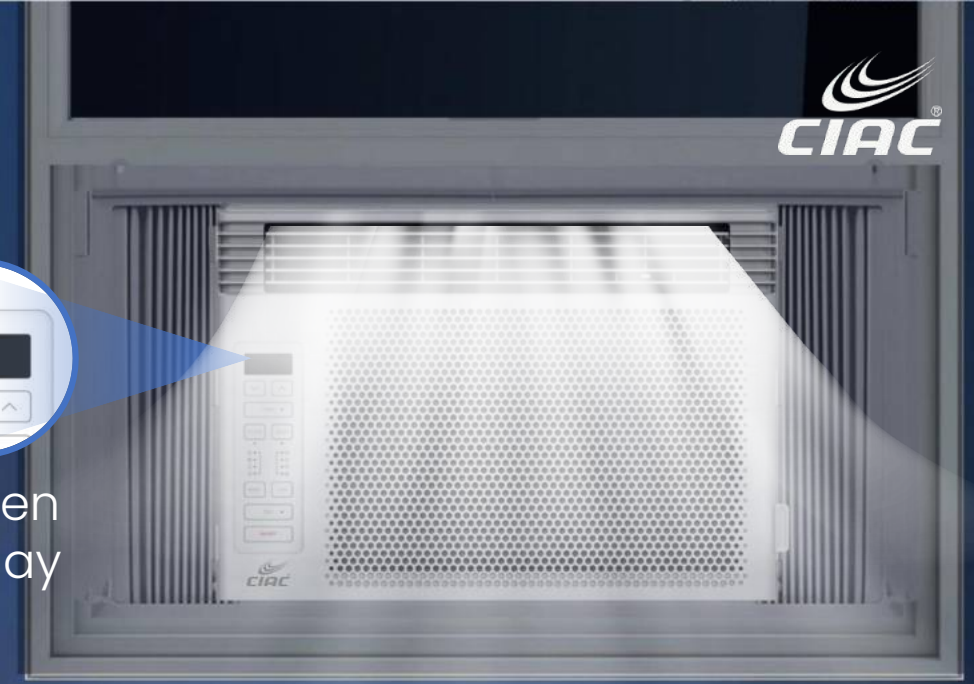

Sleep Mode

In sleep mode, the indoor unit reduces the fan speed and turns off the display light to avoid light and noise from interfering with the user's sleep, that creates the desirable climate for a good night's sleep.

Hidden Display

Lower the Fan Speed

24h Timer

Both the remote control and control panel are equipped with a timing button, supporting timer setting 1-24h (1h step).

ECO

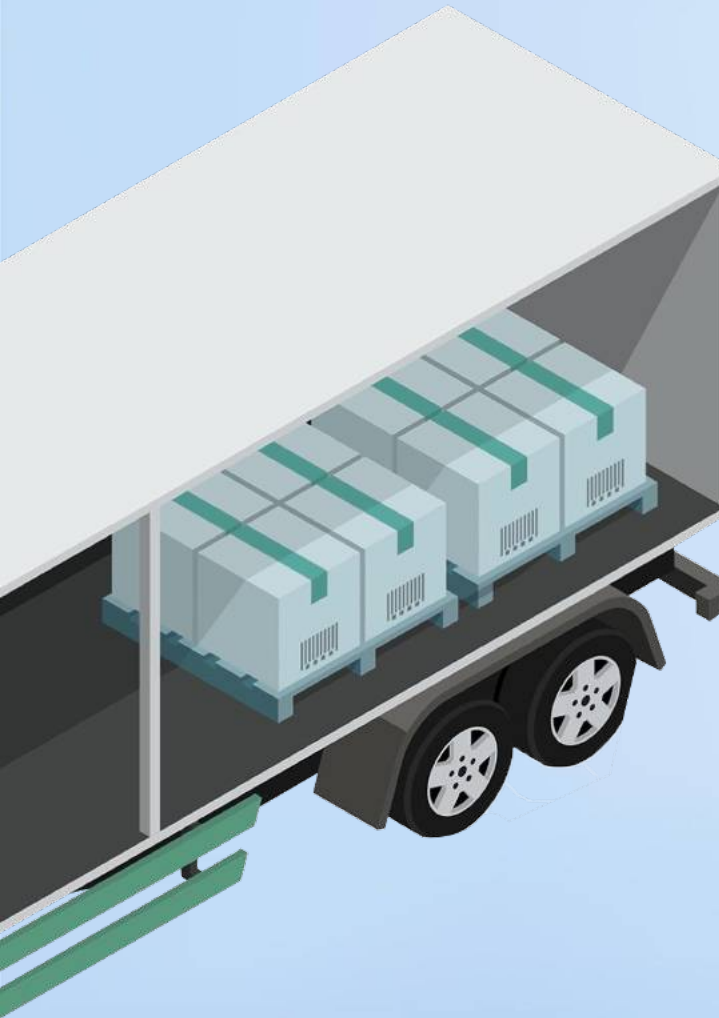

ECO Mode

On-off-By optimizing the operation strategy of the air conditioner and controlling the start-stop frequency of the compressor, energy efficiency is improved and energy consumption is reduced.

Comparison
